Cairo, Egypt, 28th November – 2nd December, 2015

Previously agreed by the Board of Directors of the Center session number (48) on 23/5/2015 AD on a training course for doctors entitled "Practical training on advanced technology for the treatment of infertility in the developing countries."

The workshop was held from **28th November - 2nd December 2015** at the center under the auspices of **Grand Imam Dr. Ahmed Mohamed El-Tayeb- Sheikh Al-Azhar Al-Sharif and Prof. Abd Elhai Azab-** President and Chairman of Board of Directors of the Center in conjunction with International Islamic Center for Population Studies and Research (IICPSR) Al-Azhar University, under the Leadership of **Prof. Gamal I.**

Serour Director of the Center, Al Azhar University , FIGO Past President, EFSS President

In collaboration with International Society of Endometriosis and Uterine Disorders (SEUD) – France & Egyptian Fertility and Sterility Society (EFSS).

It was attended by (56) participants, including a number (52) doctors from the Arab Republic of Egypt, one from Kenya, one from Uganda and two from Ethiopia.

The goal of this course is to transfer and exchange of experiences with Al-Azhar University experiences and international experience represented in **International Society of Endometriosis and Uterine Disorders (SEUD) – France** and **Egyptian Fertility and Sterility Society (EFSS)** in addition to the University of **Lubeck**, Germany.

The workshop was attended by a group of professors who specialize in this field with a global reputation of outside Egypt and they are:

Prof. Charles Chapron –France

Prof. Klaus Diedrich – Germany

Prof. Ian Cook – UK

Prof. Paul Devroey – Belgium

Prof. Safaa Al-Hasani – Germany

Prof. Felice Petraglia – Italy

In addition to an excellent group of staff of center and the training has included the theory and practical aspects and many of the group discussions.

The participating doctors in the workshop were divided into twenty-two physicians to conduct practical training in the unit in the various fields in the Medical Assistant fertilization until next September.

The workshop evaluation and assessment concluded success significantly, the participants demanded by repeating such workshop on a regular basis to see what is new and modern in this field.
